- Sec. 6. The owner shall operate and maintain the private sewage disposal facilities in a sanitary manner at all times, at no expense to the [City].
- Sec. 7. No statement contained in this article shall be construed to interfere with any additional requirements that may be imposed by the Health Officer.
- Sec. 8. When a public sewer becomes available, the building sewer shall be connected to said sewer within sixty (60) days and the private sewage disposal system shall be cleaned of sludge and filled with clean bankrun gravel or dirt.

#### ARTICLE IV

- Sec. 1. No unauthorized person shall uncover, make any connections with or opening into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the [Chairman].
- Sec. 2. There shall be two (2) classes of building sewer permits: (a) for residential and commercial service, and (b) for service to establishments producing industrial wastes. In either case, the owner or his agent shall make application on a special form furnished by the [City]. (Exhibit A) The permit application shall be supplemented by any plans, specifications, or other information considered pertinent in the judgment of the [Chairman]. A permit and inspection fee of [\$200.00] dollars for a residential or commercial building sewer permit and [\$200.00] dollars for an industrial building sewer permit shall be paid to the [City] at the time the application is filed.
- Sec. 3. All costs and expense incident to the installation and connection of the building sewer except the actual tap labor and fitting shall be borne by the owner. The owner shall indemnify the [City] from any loss or damages that may directly or indirectly be occasioned by the installation of the building sewer.
- Sec. 4. A separate and independent building sewer shall be provided for every building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court yard, or driveway, the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.
- Sec. 5. Old building sewers may be used in connection with new buildings only when they are found, on examination and test by the [Chairman], to meet all requirements of this ordinance.
